Product Description

Gorgeous Flax C linen fabric is the choice for an eco-decorator. Flax C is woven from European linen. European flax is zero waste as all parts of the flax plant are utilized in the production of linen and no additional wastage occurs. In addition, the production of European linen requires only the water of rainwater and linen products are 100% degradable or recyclable. Other great benefits of linen are its naturalness, comfort, lightness and durability.

You can find Flax C in four natural, lovely shades.
